LAST DAY IN LIMBO

a radio drama in six chapters

While trying to cheer up their friend Maude Tiller who returned miserable from an assignment to spy upon wealthy businessman Ramon Paxera, Modesty Blaise and Willie Garvin find evidence in Paxera's villa that Danny Chavasse an old friend of Modesty's from the Network days is possibly still alive.

This is the start of the journey that leads to Limbo, Paxero's secret and hidden plantation in the jungles of Guatemala. Limbo is farmed by slaves, very special slaves, rich and famous men and women who have been kidnapped and will now spend the rest of their lives at hard labor, watched over by armed guards.
